Some labourers were employed at the top of the prison in making repairs, and Hawkins asked permission to assist them, as they were in want of a hand. Governor consented, and the young prisoner mounted to the top of th gaol in an instant, and spying a swal-lows nest in a corner which it was impossible to reach, without immi-nent danger of being dashed to pieces, he made a spring and reached the spot. The attendants, of course, chose rather to prevent any more escapes, than to follow such a traveller Hawkins, who made the best of his way to the north, and carried on the game there for some time without interruption. He then visited Liverpool, where he was apprehended for some trifling offence, convicted, and sentenced to imprisonment for one month. The Governor of Newgate ned, sent for him at the expiration of his term, & sent him off with a batch of convicts to Stornees. Hawkins remained for some time at the Lightmained for some time at the Hulks at that place, and was, about three months ago, sent under an adequate guard to the convict ship, just about to sail from Spithead to New South Wales.
